

Kids' Links

[Environmental Kids Club](#)

This page was developed by USEPA about water. Water is everywhere—in the sky, in the ground, and in our homes—and we use it every day. Learn how to care for this important resource.

[EcoKids](#)

This is Canada's environmental destination for kids with lots of games and activities.

[The Watershed Game](#)

The Watershed Game was developed by Distance Learning and Educational Web Adventures and Bell LIVE!

[Water Quiz](#)

United Nations Cyber School Bus has a short online water quiz. Discover fascinating facts about everyone's favorite liquid.

[Cool Climate Kids' Club](#)

Cool Climate Kids' Club was inspired by two grade six students who wrote a letter-to-the editor in a newspaper. They wrote that they were worried about climate change and asked citizens to make earth-friendly changes to their lives.

These cool kids made a difference - because of their letter people realized that young people need to be heard...and so the Cool Climate Kids' Club was created! The Club is a cool way for kids to: share their concern for our planet, to teach each other about the importance of climate change and to inspire us all to take climate-friendly action.

[Climate Change Kids Site](#)

This site is hosted by US EPA site. Full of games that are not only entertaining; they'll help kids find out just how much you know about climate change.

[Fort Air Partnership](#)

Air is our invisible connection. It's one of those things upon which all living things depend. To find out more about air quality, how it can affect us, and who's responsible for it, check out these games and resources.

[Smog City 2](#)

Using an interactive air pollution simulator to control the air quality in Smog City 2, you can see how individual choices, environmental factors, and different types of land use affect air pollution. In Smog City 2 you are in charge - so whether your visit is a healthy or unhealthy experience depends on the decisions that you make.

[Hop to it!](#)

This is another interactive site about climate change. Scroll over the images and find lots of activities to do; like this one, [All About Climate Change](#).
